MEDICAL INSURANCE BILLING AND CODING ONLINE DIPLOMA

The online Medical Insurance Billing and Coding Diploma Program is designed to provide instruction in the basic concepts and procedures necessary to perform the tasks associated with filling out health insurance forms, coding medical practice procedures, and medical terminology. Students will learn to perform a variety of administrative health information functions, including those associated with organizing, analyzing, and technically evaluating health insurance claim forms and coding diseases, surgeries, medical procedures, and other therapies for billing. Program objectives include: (1) competency in using practices that ensure health information is accurate and complete; (2) displaying proficiency in the administration and the use of health information systems and software applications; and (3) expertise in applying healthcare standards, concepts, and regulations in the delivery of healthcare. Graduates from the program may seek employment in hospitals, urgent-care facilities, clinics, insurance companies, home healthcare agencies, and pharmaceutical companies. The program prepares individuals to work as medical insurance billing and coding clerks. Upon completion of the program, students will receive a diploma.
